

#### **WHO Initiative-ILPPW**

International Lead Poisoning Prevention Week: Oct 2023

In collaboration with Simulation & Skills Lab, Saveetha Medical College & Hospital, SIMATS Chennai, Tamilnadu, INDIA

# WHO Initiative-ILPPW [International Lead Poisoning Prevention Week] OCTOBER - 2023

In Collaboration with

**The WHO (World Health Organization)** 

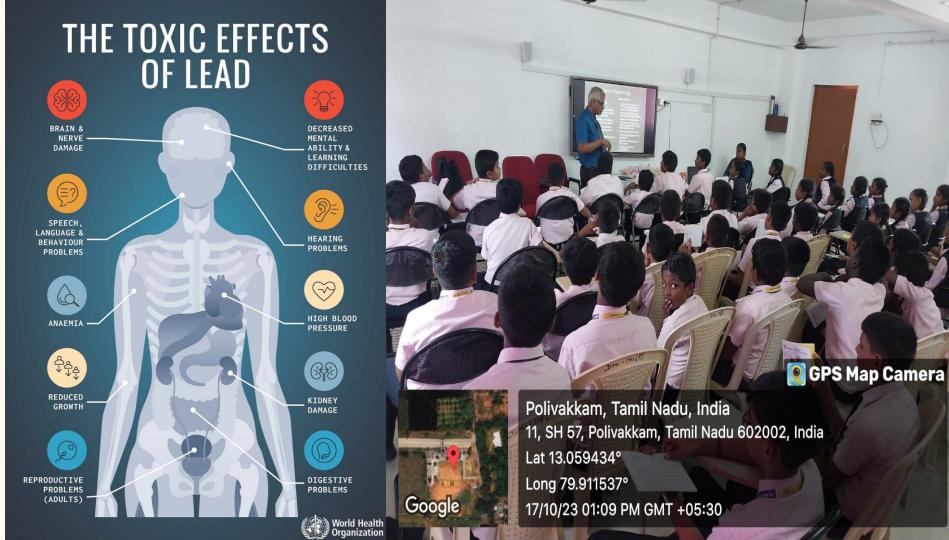

The Departments of Internal Medicine & Clinical Skills and Simulation, facilitated by the Department of Community Medicine, conducted an awareness program on Lead Poisoning and its Prevention in concert with the current theme "End Childhood Lead Poisoning", to 200 students studying in a Primary school in Polivakkam, Chennai, Tamil nadu State, India on October 17th and 20th, 2023

World Health Organization's (WHO) latest data estimates that more than 2 million deaths globally were attributed to chemical exposures in 2019. Lead exposure was attributed to nearly half of these deaths. Lead exposure was estimated to account for 21.7 million years lost to disability (disabilityadjusted life years, or DALYs) worldwide in 2019, including 30% of the global burden of idiopathic intellectual disability, 4.6% of the global burden of cardiovascular disease and 3.0% of the global burden of chronic kidney diseases.

We observed, joining hands across the globe, WHO's "Lead Poisoning Prevention Week". PP supported Lead Poisoning Prevention awareness module was provided to 200, Primary school students at DMI St Joseph Global Senior Secondary School (CBSE) in Polivakkam, Chennai on 17th and 20th October 2023 between 9:30 am to 2:30 pm. Students came in batches of 40. 5 batches were mentored (200 students)

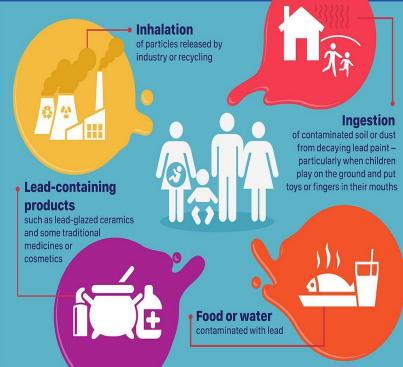

### **LEAD EXPOSURE CAN OCCUR THROUGH...**

#BanLeadPaint

There is no safe level of lead exposure

On 20/10/23, Standards 10, 11 & 12 participate in imbibing Lead Poisoning awareness, sources, implications and prevention

## A SYNOPSIS ON LEAD POISONING MANAGEMENT WITH WHO RESOURCE SUPPORT ALSO WAS SHARED

- Oral Succimer
- Parenteral Calcium Disodium edetatae
- (Calcium EDTA)
- British Anti Lewisite (BAL; Dimercaprol)
- D-Penicillamine
- Please check out in <u>https://www.who.int/ipcs/l</u> ead campaign/en/

### 20.10.2023

The presentation
was followed by a
Kahoot Interactive
Quiz and prizes were
distributed
